weekend papers often have
interesting articles

Visit galleries and museums,
immerse yourself in art!
You can do online tours of galleries
whilst they are shut due to Covid-19.
Many galleries are giving virtual tours
of exhibitions that would have been
open now. The world & its art is at
your fingertips!

MAKE ART. Artists have always made art from bits of rubbish in times of crisis; you don't need fancy art materials and a studio space to be creative! Draw from direct observation; photograph your isolation and new routines. Look closely, what do you notice, what do you want to record? Your bedroom is an art gallery, curate an exhibition of all your favourite things and invite your family to the Private View! Explore new ways of working, take creative risks, have fun, make mistakes, learn from them, make them again; refine your skills, experiment with new ones by trying different techniques and processes. **DO SOMETHING CREATIVE EVERY DAY.**
